

TRY A NEW WAY TO STAFF UP

Cover your shifts with quality on-demand workers. Snagajob helps you staff up and fill scheduling gaps so you can spend more time managing your business.

Share shifts with your favorite shift workers

After you give a worker a positive rating, you can choose to add that worker to your certified roster and share future shifts with them. If you're really impressed, you can hire them for a small fee.

Get the right workers for (almost) any job

We specialize in filling entry-level positions in the restaurant, retail, hospitality, catering and events industries. Dishwashers, Event Staff, Hosts, Food Prep, Banquet Servers, Expo, Runners and Cleaning Staff are just a few of the shifts we fill.

Our shift workers really are high-quality workers

Before a worker can pick up a shift, they must undergo our five-step vetting process which includes a background check, video interview and training. You can also require workers to watch certain training materials specific to your brand before they work a shift.

Cover last-minute shifts with ease

Our shift workers can fill shifts a few hours before the start time. For best results, we recommend posting your shifts at least 24 hours in advance to guarantee a higher fill rate.

Get instant alerts when your shifts are picked up

You'll get peace of mind knowing exactly when your shifts are picked up. Managers stay informed and know who to expect when it comes time to clock in.
