

# Maximize your campaigns with more control and real-time results

## Create, track and edit your Snagajob recruiting campaigns with Campaign Management

Campaign Management gives you the data and tools to make the most of your recruiting budget. You can use this self-service tool to create campaigns, track their results and edit based on budget, pacing, market needs and more!

### Stay fully staffed

Target and boost locations with the most urgent needs. Put your dollars where they'll matter the most and watch the interested applicants roll in.

### Stay up to date

View real-time results to track performance. Always have the information you and your team need right at your fingertips.

### Stay on budget

Only pay for the results you receive. Make adjustments to your campaigns quickly or set monthly budgets to keep costs in check. You can even set annual monthly budgets if you like to plan in advance.

I'd probably have 10 or 15 of these (campaigns) if I have this much control over how I could bid based on need.

Brian, Noodles & Co

Let's get started
