

January 7, 2021

The Honorable Donald J. Trump
President of the United States
The White House
Washington, DC 20500

Dear Mr. President,

On behalf of the companies we lead and the millions of American workers we employ, we are writing to ask that you do not impose punitive tariffs on goods from Vietnam. We agree that our trading partners must abide by global trade rules, and we support enhanced bilateral engagement with Vietnam to resolve concerns. However, responding with tariffs would undermine American global competitiveness and harm American businesses and consumers at a time when they can least afford it, as they are struggling from the impacts of COVID-19.

We are particularly concerned about the prospects of additional tariffs being applied to U.S. imports of apparel, footwear, technology components, luggage and travel goods, furniture, and accessories from Vietnam. Imports of these products already face some of the highest duties the U.S. government charges. If additional tariffs are applied to U.S. imports from Vietnam, it would mean that more than half of all apparel and footwear and more than three quarters of all accessories sold in the U.S. would be hit with cumulative tariffs as high as 25-50 percent. Many companies shifted sourcing to Vietnam as a direct result of the China 301 tariffs and supply chain diversification efforts. Placing tariffs on imports from Vietnam would punish those companies who made the sourcing shift as the administration had asked.

In addition, Vietnam is a major export market for U.S. job-creating textile, chemical, hardwood and agricultural products, and imports of raw materials from Vietnam are critical inputs used by U.S. manufacturers of finished goods. According to the U.S. International Trade Commission, U.S. textile and apparel exports to Vietnam increased by \$97 million from 2015 to 2019. During that same time, U.S. footwear exports to Vietnam increased by \$170 million. U.S. chemical exports to Vietnam have been accelerating in recent years, growing 62 percent year-over-year (Y/Y) to \$824 million in 2018 and 41 percent Y/Y to \$1.1 billion in 2019. These American exports, along with key U.S. agricultural exports, will almost certainly be subject to retaliatory tariffs if the Administration imposes tariffs on Vietnamese products.

We urge the Administration to avoid tariffs and instead utilize more targeted tools that are specifically intended to address currency and timber concerns.

Sincerely,

Companies

Ken C. Hicks, Chairman, President & CEO, Academy Sports + Outdoors
